

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Approval of Professional Services for Test Well Drilling 1997/98

MEETING DATE: November 20, 1996

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council approve retaining Clark Well, Inc. of Stockton as a qualified driller for test well professional services for 1997/98. Cost will be based on time and materials.

BACKGROUND INFORMATION: In the past, the Council has approved retaining a qualified driller, on a time-and-materials basis, for drilling test wells. The work is fairly specialized and few drillers do this work. Clark is an engineer specialized in this field, has done a good job in the past and cooperates well with City staff. We have also checked costs and Clark has been substantially less expensive. The cost of each test well is approximately \$12,600. This approval would be for test wells done in the next two years.

Three sites have been identified for investigation and testing. These sites are in areas of future development and conform to locations shown in the Water Master Plan. These sites are:

1. The neighborhood park at the future Bridgetown subdivision
Location - north of Turner Road and west of Lower Sacramento Road
2. Roget Park, east of the Target Store
Location - north of Kettleman Lane and west of Mills Avenue
3. DeBenedetti Park - G-Basin
Location - south of Century Boulevard and east of Lower Sacramento Road

FUNDING: Water Development Impact Fees

Jack L. Ronsko
Public Works Director
